

STOP and READ !! – I asigN

Software Activation

This software will only run for 60 days – but you can activate it at any time.
After this time you will not be able to re install the software on the same computer

To activate, either

Email the Site code and Machine ID (that appears in the Windows dialogue when you first launch I asigN) along with your Company name to support@hitechsys.com

We will then email you an Activation Code that you enter into the text field, and a Username and Password to manage your software using the activation center – see next.

Site code: 4AA3BFEF MID: A410-C7C6-10BC-8DDB

Days left: 60 Uses left: N/A

Activation code

Unlock application

Click this button and then enter the activation code

README Hi Tech Website

Enter application EVALUATION

Cancel Continue >>

OR

If you have already been given your Username and Password, you use the activation centre login page: <http://activate.hitechsys.com>

After you have logged in you will have an opportunity to edit your company details.
IMPORTANT PLEASE MAKE SURE YOUR DETAILS ARE CORRECT AS THEY WILL BE USED TO CONTACT YOU WITH SOFTWARE UPDATES.

Now click on Orders (At the top of the screen on the navigation bar) to check your order status.

You can download your software by following the link listed in the "Program name" column. When you have your software installed click on "licences", then "+" and enter the Site code and Machine ID

Note: Please be sure to enable cookies and pop-up windows for our site in your web browser.
